

## Home learning

w/b: 18.5.20 Year: 4

### Message from Mrs Hills and Mrs Stevenson

Hello Year 4!

We hope you've all had a good week and are doing ok. It was great seeing some of you on the zoom call and I hope you enjoyed the quiz. Thank you so much to those of you who have sent us some pictures, messages and work. It looks like lots of you had a special time commemorating VE day last week. Keep sharing with us. We miss you and it's a great way to keep in contact. The email address to send it to is [year4@lea-pri.herts.sch.uk](mailto:year4@lea-pri.herts.sch.uk).

Dear y4

I am thinking of you and missing you daily. The memories of your smiles, stories, and antics bring me so much joy in these challenging times. "I hope you are all safe and healthy and I hope we are together again soon. It was lovely seeing you on zoom and I really enjoyed the quiz. Remember to keep smiling and stay positive. To help you stay smiling here's my joke of the week.

"What do you call a fake noodle"

"An impasta "

Keep safe

Mrs Dada

**Remember to do some reading, writing and maths every day.** You don't have to do everything on the grid, so don't feel under pressure to do it all, just do what you can manage.

**Remember to check out the activities on educationcity in the year 4 folders.**

**We still recommend that you watch the BBC iplayer daily lesson. It is short and covers lots of things.** <https://www.bbc.co.uk/iplayer/episode/p089rgyc/bitesize-79-year-olds-week-4-4-maths-with-gary-lineker> Choose week 5. You should be able to choose each day's session from there.

## Maths

Please see the Lego challenge at the end of this grid.

Please follow the daily maths lessons on <https://whiterosemaths.com/homelearning/>

Please join in on one a day. This week is about fractions. It is connected to the BBC Bitesize daily lessons with links going straight there for activities and further teaching. If you don't like the above website or want to try a different one, that is fine, but we suggest you stick to one website as they all build on the learning taught previously. You could try one of these websites:

<http://www.iseemaths.com/home-lessons/> or <https://www.thenational.academy/online-classroom/year-4/maths#subjects>

Remember to keep practising your times tables – every day! Don't forget to practise the division facts too.

## Writing

Please see the writing challenge cards attached. There are ten different options. Choose one for each day and do the writing it suggests.

Or

If you prefer the picture writing tasks, we have done a couple of previously, you can just choose one of those tasks on <https://www.pobble365.com>. Look for a picture you like and the writing tasks are underneath when you scroll down. Remember to use ETWW in all your writing.

We also recommend you continue to watch the daily English lessons on BBC bitesize . They are only short and will continue to help to develop your writing.

## Grammar, punctuation & spelling

Please revise prefixes and suffixes using this clip on BBC

<https://www.bbc.co.uk/iplayer/episode/p08cbp0s/bitesize-79-year-olds-week-4-9-teacher-talks-prefixes-and-suffixes>

How many other prefixes and suffixes can you remember? How many words can you think of for each of them?

## French

Continue to revise the words that are on the sheet sent out last week. Here is a song to revise numbers to 100

<https://www.youtube.com/watch?v=DnrTrbJ6mYs>

## Topic – The Romans

What were the Roman religious beliefs?  
Which Gods and Goddesses did they have?  
What changed their religious beliefs towards the end of their reign? Something happened in 391AD which impacted this.

Watch this clip

<https://www.bbc.co.uk/bitesize/clips/z7fvr82> and find information on this website:

<http://www.primaryhomeworkhelp.co.uk/romans/gods.htm>

Present your information in any way you like.

## Physical activity

Do something active every day. You could go for a run with your parents, ride a bike or do some skipping. You could also make up your own fitness routine. If you are able to, you can also do PE with Joe Wicks on Youtube or go to the Fitter Futures website and have a go at the workouts. Try to mix up the type of exercise you do, so you complete a balance of cardio and core strength activities.

**Username: thelea2**

**Password: 3ffzx** Please ask an adult to log on for you, as we must **not** change the password.

Why not keep a fitness diary so you can track your exercise.

## Art

Try making a piece of art using things found in nature. It can be absolutely anything you like. We would love to see what you've made, so make sure you send a picture in for us to see. To inspire you, the picture is a nature sculpture of a throne with a queen sitting on it.

## Music

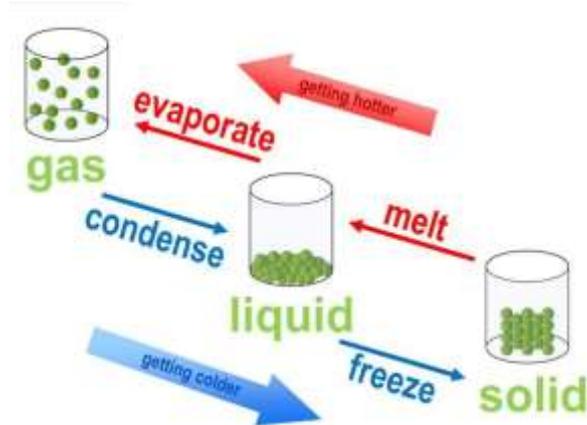

I hope you enjoyed the creative music session last week. This week BBC Ten pieces are going to teach you a song and you can join them in singing it in a virtual choir. (Don't worry, no one will be able to see or hear you apart from your family!)

<https://www.bbc.co.uk/teach/ten-pieces/watch-this-do-this-weekly-activities/zjv3382>

If you enjoy the activities from BBC Ten pieces, you can just scroll down and join in some more.

## Science

Below is a diagram showing the changes of state that you have looked at in previous weeks.

Use this example or others you can find online in order to create a poster that shows how gases, liquids and solids change state.

## PSHE

Humans can affect planet Earth in different ways. Can you think of what ways we affect the Earth, both positive and negative ways? Ask your parents as well.

Think back to the Autumn when we had a lesson about recycling and plastic waste. How can we help to look after our Earth? Here's a clip that might help you to think more about it.

[https://www.youtube.com/watch?v=6jQ7y\\_qQYUA](https://www.youtube.com/watch?v=6jQ7y_qQYUA)

Perhaps you can do a poster or a powerpoint about how we can help to look after planet Earth. Perhaps you can make something out of things that have been recycled, so they don't go to waste?

## Daily basic skills and online learning

- Practise your spellings as handwriting, using the LetterJoin information and login sent home to help you. 15 minutes 3 times per week. See links below.
- Practice your times tables on <https://trockstars.com/> using the logins that were sent home. Focus on the times tables that you are less confident with.
- Practice your number bonds to 10, 20 and 100. How quick can you get at matching them? To those who are confident with whole numbers, make decimal numbers, ie  $45.67 + 54.33$ .
- Read for at least 20 minutes a day. Also get adults to read books and stories to you.
- Listen to **David Walliams** reading extracts from his books at 11am every day on <https://www.worldofdavidwalliams.com/elevenses/>
- Practice reading and spelling all the high frequency words.
- Practice reading and spelling words from the year 3/4 spelling list. Write

sentences using the words.

Do some daily writing. See the grid above first. You may also want to keep a diary of the activities you do every day. You could also write a story of your own, create a comic strip for a story that you know well, or create some non-fiction fact-files for topics that interest you.

Do not forget to use our every time we write rules:

- Say it, write it, read it
- Use our neatest handwriting
- Use capital letters and full stops
- Check spellings of our High Frequency Words

### **Websites:**

Email address for queries about logins:

[year4@lea-pri.herts.sch.uk](mailto:year4@lea-pri.herts.sch.uk) - Please do let us know if you are having trouble with logins.

- Links to spelling lists are on our school website on <https://lea-pri.herts.sch.uk/curriculum/english/>
- Reading Eggspress – in addition to your own reading for enjoyment, there are comprehensions, spelling games and books to read on here. <https://readingeggspress.co.uk>
- Times Tables Rockstars on <https://trockstars.com/>
- Education City – there will be a selection of tasks set for Maths, English and Science  
with Learn It sections to support some concepts if you need them. There are downloadable worksheets, too, to print out and try. There are lots of different games and activities on this site, so explore, learn and have fun! <https://ec1.educationcity.com>
- Fitter Futures subscription – <https://app.fitterfuture.com/student/auth/login>
- LetterJoin <https://www.letterjoin.co.uk/> Use this to practise writing spellings using your neat joined handwriting.
- Twinkl – parents can use this free from home for a month to support learning at home.
- **If you would like more, there are also the daily lessons on BBC bitesize. They are very good if you are happy to have extra screen time. <https://www.bbc.co.uk/bitesize/dailylessons>**

## **Maths Lego challenge**

You will need 6 lots of 2 by 4 Lego bricks. It doesn't matter what colour they are and they don't have to be the same colour!

We would like you to find as many combinations as you can of putting together your six Lego bricks. They must all be connected in some way, in order for it to count. Did you know that there are actually **915,103,765 combinations!** It might take you a while! (You don't have to find them all!) Have fun. Here is a picture of two different combinations to inspire you.
