

Message from Miss Weston

Hello, Year 6!

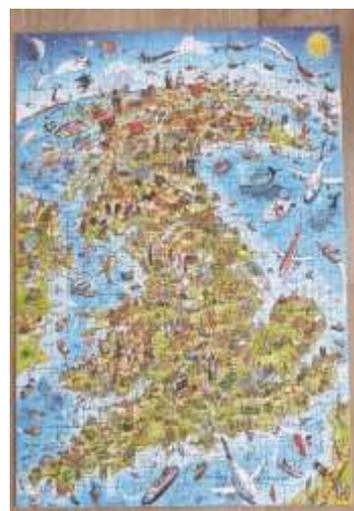

I hope you are all well? I really enjoyed our quiz session via Zoom the other day, always so lovely to see so many of you! So, this week at school should have been our week at PGL; I know you are all bitterly disappointed that we aren't there but once this is all over, we will do something together as a class even if it is next year! I thought, instead of the normal remote learning grid this week, you could have a virtual PGL camp grid instead! To begin with, can you complete the initial tasks then each day try to complete at least one of the challenges and as many of the optional challenges as you would like to. Please send in photos and evidence of your virtual PGL camp week, I would love to see everything that you have been up to. You could send me a PowerPoint display of your virtual camp week or a video? **(You don't have to complete everything – just have some fun!)**

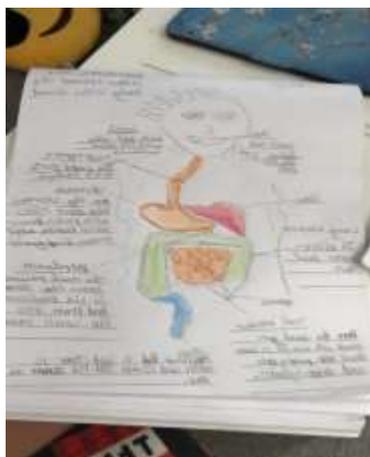

I am so proud of you all and am really impressed by all the emails and work you are sending me – keep them coming in! We are all missing you here, so please remember to keep sending in any examples of work or pictures of fun activities to year6@lea-pri.herts.sch.uk so we can celebrate your efforts.

Celebrate learning

Amy sent over a very informative Power point display based on beliefs and how we can live in harmony. Dylan has been working hard with his writing. Ruby and Poppy have been putting so much effort into SATs questions and achieving some great results. They have also been learning about 2D and 3D shapes. Lia has been busy making a game about the circulatory system and played it with her family. Micah has produced a great graffiti art piece and is keeping busy by sewing lots of characters from a video game they all love. Taylin has been her usual helpful self and helping with her younger sisters learning, she's also been completing lots of the grid activities, going on bike rides, found caterpillars and has even made gifts for people to make them smile. Josh continues to practice his cooking skills and his pastry by making a chicken pie – it looks amazing! As it was his birthday to, his sister organised a 'bake off' day between the 2 of them! They sent me the video of this and it was so good to watch. Alexandra continues to keep herself busy with completing jigsaws, completed sketches with a viewfinder and sent me a fantastic 'happy reporter' video that told me everything that made her happy during lockdown. Ana has been keeping herself busy with chalk drawings. Matthew worked really hard on his circulatory board game, he put so much effort into it.
