

Nursery Spring Term

The children have been busy this term and have enjoyed observing the changing seasons and weather, learning about Chinese New Year and celebrating World Book Day.

They had great fun in the snow at the beginning of the term and despite missing their Reception friends, they had lots of fun building snowmen and sledging outside! We shared winter stories and some non-fiction texts about polar animals. The children particularly enjoyed learning some interesting facts. In maths, they looked at patterns on their winter clothes and made their own repeating pattern scarf.

They enjoyed reading Goldilocks and the Three Bears. Their favourite part was making and eating their own porridge of course! They also enjoyed playing with the oats in the mud kitchen and creating their own porridge oat recipes. Luckily, Goldilocks did not pay us a visit!

We have been learning about rhyme and a favourite story has been The Cat in the Hat. The children made their own masks, remembering their work on repeating patterns and explored building and balancing, just like in the story

We have also walked to the outside classroom to explore the changing seasons, shared stories outside and completed spotter sheets with a partner. We enjoyed investigating the signs of Spring without our woolly hats!
