

## Nursery - Summer Term

The weather has been changeable, but we have taken advantage of the sunny days. We have had lots of fun pouring and measuring in the new water area, developing our vocabulary of full and empty whilst filling the containers and exploring objects that float and sink.

We joined the rest of the school for Sports Day. We practised our jumping, throwing and dribbling skills and worked well as part of a team.

We had a lovely Elmer Day. The children made patchwork elephant ears and we enjoyed sharing Elmer stories in the outside classroom.

We sang songs about the sea using the parachute. It was great fun pretending we were in a storm!

We made a boat using the large wooden blocks and imagined we were in an Olympic boat race!
