

Wellbeing Support for Parents

1 in 4 people will experience stress, anxiety or low mood at some stage

Every year we help over 19,000 people in Hertfordshire

Who are we?

The Wellbeing team is designed to help people like you manage everyday problems. We are part of the national initiative Improving Access to Psychological Therapies (IAPT). The NHS Wellbeing Team are offering free, confidential support to all parents.

Are you...

feeling stressed?

unable to sleep?

struggling with the pressures of being a parent?

worrying all the time?

fed up and tearful?

unable to cope with work?

Then you might benefit from free support offered by the **Wellbeing Team**.

This support is based on Cognitive Behaviour Therapy (CBT). CBT is highly effective at reducing symptoms of low mood, anxiety and other emotional problems.

If you are feeling anxious or stressed we aim to help you:

- Understand why you feel this way
- Explore with you, how the way you behave effects how you are feeling
- Agree what you want to improve and develop new ways of thinking and coping

Our help is offered in different ways to suit your needs including:

- Individual sessions
- Online programmes that you can access in your own time with telephone support
- Workshops and/or group work
