

## Nursery Summer Term Learning...

Nursery have been busy this term! We read 'The Very Hungry Caterpillar' and thought about foods which are healthy for us. We also practised cutting, squeezing and tasting different fruits and painted some lovely pictures of them, exploring colour mixing. Look at our display!

We have enjoyed our animal encounters this term and got to hold and find out about a range of furry animals, reptiles and mini-beasts. We also hatched our own ducklings and learnt the song, five little ducks went swimming one day. We had great fun swimming our ducks in the water tray; the ducks had fun too!

We have enjoyed the warmer weather recently and planted our own sunflowers, grass seeds as well as fruits and vegetables. We even made our own 'grassy caterpillar' and had fun snipping his grassy hair when it grew!

We have been working hard with our numbers and counting. The children practised counting the bees in the hive and have been exploring the fives frame.

We also enjoyed joining the whole school for the Jubilee celebrations.
