

What an amazing Summer term we have had in Year 2! We have had so much fun learning and creating.

In English we have been reading Charlie and the Chocolate factory. We all write letters to Mr Wonka explaining and describing a new sweet treat that we thought he could invent! So many wonderful ideas!

In Science we have been learning about animals and their habitats. We know how animals are suited to their habitats and how some have adapted over the years. We have learnt about what food chains are and how some animals are carnivores, herbivores or omnivores

We have had so much fun celebrating the Queen's Diamond Jubilee. We thoroughly enjoyed celebrating as a whole school and we even sent cards that we had made to the Queen! We created our own bunting to decorate the classroom with by learning how to tie dye fabric, sew on embellishments and how to attach the bunting to the ribbon using a running stitch.

In Geography we have learnt about Kampong Ayer. Did you know Kampong Ayer is a water village and all their buildings are on stilts so they sit above the water? We made lots of comparisons between our lives and those who live in Kampong Ayer.

In History we have been learning about the British Kings and Queens. We have looked at who has been on the thrown and learnt about why some of them have been so important to changes in the past. We also looked at when each of these monarchs reigned and created a timeline. We had a debate about whether Richard III was guilty of murder or not! We couldn't decide as a class on a verdict as we had many different brilliant reasons for each side of the argument.

It has been a fantastic summer term in Year 2 and the whole class cannot wait to see what they will be learning next in Year 3!
